OUR SERVICES

INTERIOR DESIGN

At Art House, we believe that a building is not just a brick-and-cement feature, but a space for personal statement of one's interests and views. The interiors of any place should reflect the owner's tastes. Our design process encompasses global design experience, intuitive aesthetics and in-depth research which results in original and progressive interiors. We tailor our procedure to mirror the client's multi-layered personality and create an unforgettable experience for the consumer.

INTERIOR RENOVATION

This is suitable if you have a domestic or commercial space in require of a redesign. If you're alive to generating a totally new interior space while preserving exterior and fundamental structural elements. For the Interior Renovation service, we will interpret your wishes and ideas into a complete design. We'll additionally be in charge of execution of the construct from space ideation to final installation.

FURNITURE AND JOINERY

Art House helps to shape and deliver your vision for exceptional living spaces. We specialize in hand-crafted kitchens, bedrooms and interiors. Most importantly designed around your lifestyle, tastes and character of your home.

Additionally, we create external joinery products, combining time-honored skills with modern techniques to offer superior durability, style and practicality.

CEILING AND GYPSUM WORK

Our company is a trustworthy name in this domain and is involved in providing Gypsum Ceiling Works to our honorable customers. These services are conducted by our team of adroit professionals who hold several years of experience of this sphere.

Our services are executed with utmost perfection by our dexterous professionals using the finest quality raw materials and modern techniques.

OUR SERVICES

FLOORING WORKS

Since its inception, Art House has been a leading name in of floor finishes that offer reliability, durability and consistent results. Art House's objective has been one of always aiming to produce high quality floor finishing products for the professional floor sander while simultaneously giving you, the customer, maximum satisfaction. That is, a durable floor coating, having aesthetic appeal.

Art House uses a comprehensive range of floor finishes namely non-toxic, water-based coatings, solvent based finishes and oil timber floor seals.

PAINTING AND WALL FINISHES

We are more than your typical commercial paint contractor. Our team has 13 years of collective experience in providing superior service and attention to detail for even the most demanding of clients. If it covers a wall, we can apply it with precision and exceed your expectations. Paints, Decorative Finishes, Wall Coverings and Fabric Wrapped Panels are our typical applications, although we often apply specialty finishes as well

WINDOWS CLADDING

At Art House, our professional installers understand the importance of both the functional and aesthetic aspects of these exterior trim items. They have the expertise required to make sure your home looks great and every piece provides the function it was intended to.

Our innovation and attention to detail bring out the best in your home. Art House aims to get your job done right – the first time – so you spend less time listening to power tools, and more time with your family.

LANDSCAPING

Landscaping is a task that combines science and art. Armed with horticultural knowledge, as well as familiarity with the elements and principles of landscape design, only landscape professionals can help you transform your property. Landscape architects, designers, and contractors at Art house will guide you through the landscaping process, which consists of a design and construction phase.

MAINTENANCE

Our maintenance services is a team of highly skilled trades professionals and management staff who maintain utilities and buildings. We provide quality service in an efficient and professional manner to ensure building safety and comfort. We implement continuous improvement to ensure the highest level of customer satisfaction.

We understand that clean, safe facilities and adequate lighting, seating, space, temperature and noise control are critical to building positive personal and professional experiences.

LIGHTING

Lighting technology has the capability to transform where we work nearly everywhere we go. As companies see the benefits of installing energy-efficient lighting, the savings possible today with a retrofit or re-design project are significant, immediate, and impressive.

Landscape and other exterior lighting can expand your options for enjoying your backyard, and dimmers offer almost limitless lighting schemes in whatever room you want.

ELECTRICAL SERVICES

Art House delivers comprehensive electrical services for homes and businesses throughout the Emirates.

We only include the most qualified licensed electricians in the Art house family. To join us, each technician must pass a comprehensive background check. Once they come aboard, every electrician receives ongoing training throughout their career. You never have to worry about the quality or professionalism at Art House.

PLUMBING AND SANITARY FIXING

Since the day of its formation in 2008, Art House has been efficiently providing residential and commercial plumbing services.

We offer to help you with the following services:

- RENOVATIONS
- CONSTRUCTION
- UTILITY CONSTRUCTION
- PLUMBING REPAIRS & UPGRADES
- MAINTENANCE PLANS

HVAC

Art House continues the mission of providing the best HVAC services and more to our customers. We maintain high standards of dependability, products, and your satisfaction.

We can work on any brand of air conditioner or heater, at any time. We have the technical expertise to fix any heating or cooling system, and with our efficient service guarantee, we can get there faster than the competition.

A low-angle photograph of a male HVAC technician working on a ceiling-mounted air conditioning unit. The technician is wearing a blue hard hat, safety glasses, and a grey polo shirt with red trim. He is reaching up with both hands, using a screwdriver to adjust a component of the unit. The unit's cover is partially open, revealing internal components like a green filter and a black coil. The background shows a bright, modern interior with large windows.

OUR SERVICES

OUR APPROACH

LISTEN

Understand the need of the client and collect all available data and opinions.

EXPLORE

Throw the creative net wide to gather the full range of factors and influences which may contribute to the project.

INVOLVE

Include the team in an open minded and stimulating brainstorming process which challenges the preconceptions.

DISTILL

Define all the ideas to data and extract the essence for the most appropriate solution.

EXPRESS

Clearly communicate the vision for the project through design.

EXECUTE

Implement and deliver the project on time and to budget.
